

MARKET RESEARCH REPORT: THE RISE OF QUICK COMMERCE IN INDIA

****Prepared by:** Akshay Patel**
****Internship Domain:** Business & Marketing Strategy**
****Organization:** CodeAlpha**

1. Executive Summary & Market Trends

India ka retail market ek bade shift se guzar raha hai. Pehle log mahine ka kirana paas ki dukan se late the, fir E-commerce (Amazon/Flipkart) se 1-2 din mein aane laga, aur ab ****Quick Commerce (Q-Commerce)**** ka zamana hai jahan ****10-15 minutes**** mein delivery ho jaati hai.

Key Market Trends:

- * **Shifting from Groceries to Everything:**** Ab sirf dhoodh-sabzi nahi, balki electronics, cosmetics, kapde, aur festival items (jaise Rakhi ya Diwali diye) bhi 10 minute mein deliver ho rahe hain.
- * **Tier-2 City Expansion:**** Pehle yeh sirf Mumbai-Delhi tak tha, par ab Varanasi, Lucknow, aur Jaunpur jaise shehron mein bhi iska craze tezi se badh raha hai.
- * **Average Order Value (AOV) Growth:**** Log ab choti-choti cheezon ke sath-sath mehnghe items bhi in apps se mangwane lage hain, jisse har order ka bill amount badh raha hai.

2. Target Audience Analysis

Quick Commerce ka business model sabhi ke liye nahi hai. Iska main target audience specific group hai:

- * **Working Professionals & Students:**** Jin ke paas market jaane ka time nahi hota aur jo akele rehte hain.
- * **Tech-Savvy Homemakers:**** Jo ghar ka saaman turant mangwana chahti hain bina kisi jhanjhat ke.
- * **Late-Night & Impulse Buyers:**** Jo raat ko snacks, party items, ya sudden cravings ke liye order karte hain.

3. Competitor Analysis (The Big Three)

Feature	Blinkit (Zomato)	Zepto	Swiggy Instamart
---	---	---	---
Market Share	Market Leader (~40-45%)	Fastest Growing (~25-30%)	Strong Competitor (~20-25%)
USP (Unique Selling Point)	Massive product variety & Zomato's ecosystem	Pure 10-minute delivery focus	Great discounts & Swiggy One integration
Dark Store Network	Very strong in North & West India	Highly dense in Metro cities	Pan-India presence

4. SWOT Analysis: Quick Commerce Sector

Strengths (Taqat)

* **Hyper-Local Speed:** 10-15 minute mein delivery dena sabse badi taqat hai jo customers ko addict bana deti hai.

* **Advanced Tech Infrastructure:** AI aur Machine Learning ka use karke yeh pehle hi predict kar lete hain ki kis area mein kis cheez ki demand zyada hogi (Predictive Inventory).

* **Dark Store Model:** Yeh bade malls ki jagah chhote, saste warehouses (Dark Stores) se operate karte hain, jisse rent ka kharcha bachta hai.

Weaknesses (Kamiyan)

* **High Operational Cost:** Har 2-3 kilometer par ek dark store chalana aur delivery riders ko pay karna boht mehanga padta hai.

* **High Rider Turnover:** Delivery boys boht jaldi kaam chhod dete hain, jisse naye riders ko baar-baar hire aur train karna padta hai.

* **Low Margin on Loose Items:** Sabziyan aur khuli cheezon par profit margin boht kam hota hai, aur waste hone ka khatra zyada reha hai.

Opportunities (Mauqe)

* **Private Labels:** Apps apne khud ke brands (jaise Zepto's Relish ya Blinkit's local brands) laa kar margin badha sakte hain.

* **High-Margin Categories:** Electronics (Chargers, Earphones) aur Beauty products bechne se profit boht tezi se badhega.

* **Pharma Delivery:** 10-minute mein urgent dawaiyan deliver karna ek boht bada untapped market hai.

Threats (Khatre)

* **Local Kirana Store Backlash:** Local dukandaar aur unki associations is model ka virodh kar rahi hain kyunki unka dhandha asarandaz ho raha hai.

* **Government Regulations:** Delivery riders ki safety aur working hours ko lekar government sakht niyam la sakti hai, jisse cost badhegi.

* **Intense Price War:** Ek dusre se aage nikalne ke liye lagatar discounts dena long-term mein nuksaan de sakta hai.

5. Strategic Recommendations & Conclusion

Quick Commerce ka future boht bright hai, par long-term mein survive karne ke liye in companies ko sirf discounts par nahi balki **Profitability** par dhyan dena hoga.

1. **Focus on Tier-2 Cities:** Metro cities ab saturate ho rahi hain. Agla growth engine Varanasi jaise emerging cities se aayega.

2. **Sustainability:** Electric Vehicles (EVs) ka use badhana hoga taaki delivery cost aur pollution dono kam ho sakein.

Quick Commerce Market Share in India (2026)

- 1. Blinkit (Zomato): 45%
- 2. Zepto: 28%
- 3. Swiggy Instamart: 22%
- 4.other:5%
