

CASE STUDY ANALYSIS: ZOMATO'S MARKETING & BUSINESS STRATEGY

Prepared by: Akshay Patel

Internship Domain: Business & Marketing Strategy

Organization: CodeAlpha

Topic: In-Depth Analysis of Zomato's Business Model & Marketing Techniques

1. Introduction & Company Overview

Zomato India ka sabse bada food delivery aur quick commerce platform hai. 2008 mein Deepinder Goyal aur Pankaj Chaddah ne iski shuruat "Foodiebay" ke naam se ki thi, jahan sirf restaurants ke menu cards scan karke dale jaate the. 2010 mein iska naam badalkar **Zomato** rakha gaya.

Aaj Zomato sirf ek food delivery app nahi hai, balki yeh ek poora food ecosystem ban chuka hai jo restaurants khojne, khana mangwane, table book karne aur ab Blinkit ke zariye 10 minute mein grocery deliver karne tak ka kaam karta hai.

2. Zomato's Business Model Analysis

Zomato ka business model multi-source revenue par chalta hai:

Food Delivery Commission: Zomato har order par restaurant se 15% to 25% tak ka commission leta hai aur customers se delivery fees charge karta hai.

Zomato Gold Subscription: Customers ko free delivery aur extra discounts dene ke liye loyalty program chalaaya jata hai, jisse unhe advance cash-flow milta hai.

Restaurant Advertisements: Jo restaurants app par sabse upar dikhna chahte hain, unse Zomato ad revenue leta hai.

Hyperpure by Zomato: Yeh Zomato ka B2B vertical hai, jahan yeh sidhe farmers aur mills se fresh ingredients (sabzi, aata, chicken) kharidkar partner restaurants ko supply karta hai.

Quick Commerce (Blinkit): Grocery aur baki daily essentials par commission aur delivery charges ke zariye revenue generate hota hai.

3. Core Marketing Techniques & Strategies

Zomato ki marketing industry mein sabse creative maani jaati hai. Unki core techniques niche di gayi hain:

A. Social Media Marketing (Memes & Real-Time Marketing)

Zomato ka sabse bada weapon unka social media handle (Instagram, Twitter) hai. Yeh traditional ads ke jagah **Meme Marketing** ka use karte hain.

Moment Marketing: Jab bhi desh mein kuch bada chal raha ho (jaise Cricket

Match, Budget, ya koi viral movie trend), Zomato turant uspar ek funny post bana deta hai. Isse log connect karte hain aur share karte hain.

B. Not-so-Boring Notifications (Push Notifications)

Tumne khud dhyan diya hoga, Zomato ke app notifications boht unique hote hain:

Dopehar ko aayega: "Khaana khaya ya bas pani pi kar kaam chala rahe ho?"

Raat ko aayega: "Mummy ne tinda banaya hai? Hum hain na!"

Yeh emotional aur friendly touch customers ko majboor karta hai app open karne par.

C. Outdoor Advertising (Billboards/OOH)

Zomato ke raste mein lage bade boards (Hoardings) hamesha red color ke hote hain aur unpar bade-bade aksharon mein majedar lines likhi hoti hain. Jaise:

"Tu rasta badal sakta hai, apna taste nahi."

"Oreo Pakoda khane walo ke liye alag narak hai."

Yeh offline marketing unki brand identity ko boht strong banati hai.

D. Email & Content Marketing

Zomato apne users ko boht hi personalized emails bhejta hai. Agar aapne kuch din se order nahi kiya, toh aapko aapse jude huye discount coupons mail par mil jayenge.

4. SWOT Analysis of Zomato

Strengths

Massive Brand Recall: India mein jab bhi koi khane ki baat karta hai, dimaag mein sabse pehle Zomato ka naam aata hai.

Blinkit Acquisition: Quick commerce mein Blinkit ko kharidna unka sabse bada masterstroke raha, jo ab unhe tezi se grow kar raha hai.

Huge Data Analytics: Unhe pata hai ki kis area ke log kis time par kya khana pasand karte hain, jisse unka supply chain perfect chalta hai.

Weaknesses

Dependence on Delivery Partners: Delivery riders ke nakhre ya strikes unke poore business ko rok sakte hain.

High Competition: Swiggy ke sath unka lagatar price war chalta rehta hai, jisse profit margins par asar padta hai.

Opportunities

Catering to Tier-2 & Tier-3 Cities: Varanasi aur Jaunpur jaise areas mein log ab online food aur quick delivery ko boht tezi se apna rahe hain. Is market ko aur bada kiya ja sakta hai.

Healthy Food Segment: Aaj kal log fitness par dhyan de rahe hain, toh Zomato ek alag "Healthy & Diet Food" section ko bada kar sakta hai.

Threats

NDNC & ONDC (Government App): ONDC ke aane se restaurants ko saste mein delivery mil rahi hai, jo Zomato ke commission model ke liye ek bada khatra hai.

Food Quality Issues: Kisi ek restaurant ke khane mein dikkat aane par badnami Zomato ki hoti hai.

5. Why the Strategy Worked & Lessons Learned

Why it worked?

Zomato ne samajh liya tha ki India mein khana sirf zaroorat nahi, balki ek **Emotion** hai. Unhone apni marketing ko corporates jaisa boring rakhne ke bajaye ek "humorist friend" jaisa banaya. Unka UI/UX itna aasan hai ki ek chhota bacha ya buzurg bhi aaram se order kar sake.

Key Lessons for Marketers:

1 Know Your Audience: Customer se uski bhasha aur uske mood ke hisab se baat karo.

2 Adaptability: Jaise hi market badla, Zomato ne food delivery se aage badhkar Blinkit ke zariye Quick Commerce ko pakad liya.

6. Conclusion

Zomato ka startup se lekar ek profitable public limited company banane tak ka safar yeh sikhata hai ki sahi marketing strategy aur market ke sath badalna kitna zaroori hai. Unka focus ab sirf growth par nahi balki sustainability aur profitability par hai.

Zomato's Revenue Growth (In ₹ Crores)

Year 2021: ₹2,118 Cr

Year 2022: ₹4,192 Cr

Year 2023: ₹7,079 Cr

Year 2024: ₹12,114 Cr
